

**SATT BULLETIN #162**

# **SATT PRESIDENT CALLS FOR FULL COMPLIANCE WITH SHUTDOWN**

---

Dear Valued Member,

Following the declaration and confirmation that our members fall within the class for essential services, we wish to highlight the following:

1. Remember your staff **MUST** have a letter of authorization on your company letterhead. Said letter should also include the staff's designation, and also should include the staff's identification number/DP number.
2. Members are encouraged to ensure that **ONLY ESSENTIAL STAFF** within their firms are given letters of authorization. As far as possible, use the work from home option to minimize staff movement.
3. Members are asked to ensure that their staff do not abuse the privilege and use the authorization for their own purposes/for purposes other than those assigned.

What none of us would want is that abuse of privileges leads to a higher volume of persons in circulation, in some ways, defeating the purpose of the shutdown. Further, the discovery of any form of abuse could lead to the implementation of more restrictive measures; possibly impacting those who have been compliant.

Let us all do **EVERYTHING** that we possibly can to arrest this dreaded virus and protect lives and our collective livelihoods.

**For and On Behalf of SATT President  
Garry Dalla Costa**
